

SOMweb is the secure Smart Home solution where your data stays at home. This system enables you to control operators via a smartphone app or web browser. The data are safe, as they are not saved on external servers, but quite literally remain at home.

Technical Data

Type	SOMweb
Modulation radio	FM 868.95 MHz
Radio system	SOMloq2
Nominal voltage range 1	100-240 V
Rated frequency	50-60 Hz
Protection class	IP20
Part size	102x80x28 mm

The operator only functions with a connected photocell.

Compatibility

Product Name	Product Type	Compatible
SOMMER base+	Garage door operator	from year of manufacture 12/2018
SOMMER pro+	Garage door operator	from year of manufacture 12/2018
SOMMER tiga	Underground garage door operator	from year of manufacture 01/2020
SOMMER tiga+	Underground garage door operator	from year of manufacture 01/2020
ASB-6010	Barrier	from year of manufacture 09/2020
ASB-6010A	Barrier	from year of manufacture 09/2020
ASB-5014A	Barrier	from year of manufacture 09/2020
ASB-5507A	Barrier	from year of manufacture 09/2020
ASB-Alu	Barrier	yes
ASB-Stahl	Barrier	yes
RDC Vision+	Roller door control unit	from CW 46/2020 and software version 01.40
STArter S2	Sliding gate operator	yes
twist AM	Swing gate operator	from year of manufacture 07/2021
twist UG	Swing gate operator	from year of manufacture 07/2021
ENTRAsys+ RX	Radio receiver	from year of manufacture 06/2024

Product Name	Product Type	Compatible
SOMcom2.1	Radio receiver	yes
GIGAcontrol TA	Industrial door control unit	from year of manufacture 11/2021
